

green[®] pulse

Non-clogging suction design.

Spray stem may be removed
for use as extended suction.

Fracture-resistant
spray stem and suction tip.

PVC- and Latex-free construction.
Environmental friendly materials.

Polyurethane hose preventing blocked saline flow.

GreenPulse[®] Lavage System provides:
optimal cleaning power,
pulse frequency, pulse strength
and saline flow rate.

Airtight construction minimizes
the risk of contaminated air
leaking into the sterile field.
